

Status of the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-6 (Cancelled).

7. (Previously Presented) A method of reducing the risk or progression of cardiovascular disease comprising administering to a person in need thereof a composition comprising:

dextromethorphan;

folic acid or folate;

vitamin B6; and

vitamin B12.

8. (Previously Presented) A method of reducing the risk or progression of cardiovascular disease comprising administering to a person in need thereof the composition of claim 7, wherein the composition further includes lecithin and vitamin E.

9. (Previously Presented) A method of reducing the risk or progression of cardiovascular disease comprising administering to a person in need thereof the composition of claim 8, wherein the composition further includes beta-carotene.

10. (Previously Presented) A method of reducing the risk or progression of cardiovascular disease comprising administering to a person in need thereof the composition of claim 9, wherein the composition further includes a compound selected from the group consisting of procyanidins, flavonoids, oligomeric proanthocyanidins and mixtures thereof.

11. (Previously Presented) A method of reducing the risk or progression of cardiovascular disease comprising administering to a person in need thereof the composition of claim 10, wherein the composition further includes trimethylglycine and ginkgo biloba.

12. (Previously Presented) A method of reducing the risk or progression of cardiovascular disease comprising administering to a person in need thereof the composition of claim 11, wherein the composition further includes garlic oil and minerals.

13. (Withdrawn) A composition for reducing the risk or progression of glaucoma comprising: dextromethorphan;

folic acid or folate;

vitamin B6; and

vitamin B12;

bilberry;

bioflavonoids; and

beta-carotene.

14. (Withdrawn) The composition of claim 13 further including oligomeric proanthocyanidins.

15. (Withdrawn) The composition of claim 14 further including vinpocetine.

16. (Withdrawn) The composition of claim 15 further including omega-3-oils.

17. (Withdrawn) A method for reducing the risk or progression of glaucoma comprising administering to a person in need thereof the composition of claim 13.

18. (Withdrawn) A method for reducing the risk or progression of glaucoma comprising administering to a person in need thereof the composition of claim 14.

19. (Withdrawn) A method for reducing the risk or progression of glaucoma comprising administering to a person in need thereof the composition of claim 15.

20. (Withdrawn) A composition for reducing the risk or progression of tardive dyskinesia disease comprising:

dextromethorphan;

folic acid or folate;

vitamin B6; and

vitamin B12;
lecithin;
an antioxidant; and
oligomeric proanthocyanidins.

21. (Withdrawn) The composition of claim 20 further including pantothenic acid.
22. (Withdrawn) The composition of claim 21 further including kava.
23. (Withdrawn) The composition of claim 22 further including omega-3-oils.
24. (Withdrawn) The composition of claim 23 further including vitamin B3.
25. (Withdrawn) A method of reducing the risk of progression of tardive dyskinesia disease comprising administering to a person in need thereof the composition of claim 20.
26. (Withdrawn) A method of reducing the risk of progression of tardive dyskinesia disease comprising administering to a person in need thereof the composition of claim 21.
27. (Withdrawn) A method of reducing the risk of progression of tardive dyskinesia disease comprising administering to a person in need thereof the composition of claim 22.
28. (Withdrawn) A method of reducing the risk of progression of tardive dyskinesia disease comprising administering to a person in need thereof the composition of claim 23.
29. (Withdrawn) A method of reducing the risk of progression of tardive dyskinesia disease comprising administering to a person in need thereof the composition of claim 24.
